Lauch of the contribution program for the use of biofuels, the first in Europe for Business Aviation

Positive traffic during the 2024 Milan Fashion Week

Milan, October 4th, 2024

SEA Prime announces the launch of the program providing, under certain conditions, of a contribution of 1,000 euros for each ton of pure Sustainable Aviation Fuel (SAF) for the refueling of business aviation aircraft at the Linate and Malpensa Prime terminals by 2024, confirming availability of SAF also in view of the implementation of the Refuel EU Regulation in 2025.
The terms and conditions to apply to the program can be found on the website *www.milanoprime.com* in the "Corporate" section.
SAF is the most immediate response to reducing CO2 emissions deriving from the use of fossil fuels and SEA Prime's contribution provides concrete support for the decarbonization path of the aviation industry to reach net zero in 2050.

SEA Prime has also contributed to welcoming visitors to the **Milan Fashion Week 2024 (MFW)** which saw an overall influx of visitors growing by 4% compared to 2023: almost 245 thousand people (244,919): 56% Italian and 44% from abroad[1]. Peaks of 140 daily movements were handled at Milano Prime terminals during the MFW.
