SEA Prime to attend the NBAA Schedulers' and Dispatchers' conference in Nashville (TN)

Focus on sustainable growth:
the new maintenance hangar achieves BREEAM® design rating of Excellent

Milan, Nashville, 23 January 2023

SEA Prime, which, with the **Milano Prime** brand, is a leading operator of business aviation airports in Italy and Europe participates to this year's edition of the **Schedulers' and Dispatchers' conference** stating tomorrow in Nashville (TN).
After a very positive start of 2023 for **Milano Prime** with +25% business aviation movements year-to-date versus a very healthy 2022, also thanks to the *Milan Fashion Week Men* just ended, **SEA Prime** focus for 2023 is on sustainable growth.

The new 4,700-square-meter (50,600 square feet) maintenance hangar at **Linate Prime** due to be operational soon has achieved a Design rating of Excellent (84.7% overall score) under the internationally recognised sustainability assessment method, BREEAM®, with scores in the region of 90% for *Management*, *Energy* and Health and Wellbeing. It is a hangar - the eleventh at **Milano Prime** in Linate - that consolidates and expands the Bombardier Authorized Service Facility managed by Sirio SpA, part of the Directional Aviation Group.

Another important step towards sustainability is the availability, starting from 2023, for business aviation operators at **Milano Prime** – the first in Italy - of ENI Biojet, mixing JetA1 with 20% biofuel produced from waste raw materials, animal fats and used vegetable oil, a major step in the process of decarbonisation. SAF is a drop-in replacement for traditional fossil-based jet fuel that can reduce greenhouse gas emissions by over 90%.

"*We are really proud of the results obtained to date, which we have achieved thanks to the precious collaboration and trust of partners and stakeholders, and to see that 2023 has also opened with a growth trend. The result obtained with the BREEAM® certification for the new hangar is tangible evidence of the choice of sustainability also made in the development of new infrastructures, which remains our main objective for the next period*" has declared Chiara Dorigotti, Chief Executive Officer at **SEA Prime.**
